

FOSAMED project equipment installed at IBN Tofail University (IBN)

1- Photo of the entrance to the FOSAMED laboratory

2- Scientific laboratory equipment:

Designation	Photo	Number
Stainless steel 4l/h water distiller with tank		1

Autoclave for sterilisation		1
Bain Marie with cover		1
Soxhlet extractor 250ml (1) Clevenger 250ml complete (1)		-

Bacteriological incubator		1
Microscope with camera		1
Refrigerator		1

Biological microscopes		5
Centrifuge (1) Visible spectrophotometer (1) PH benchtop meters (2)		-
3 variables micropipettes (1 pack) Precision balance (1) Magnetic stirrer (1) Vortex shaker (3) 250ML flask heater (1) 500ML flask heater (1) 100ML flask heater (1)		-

PH field meter

1

Flame photometer

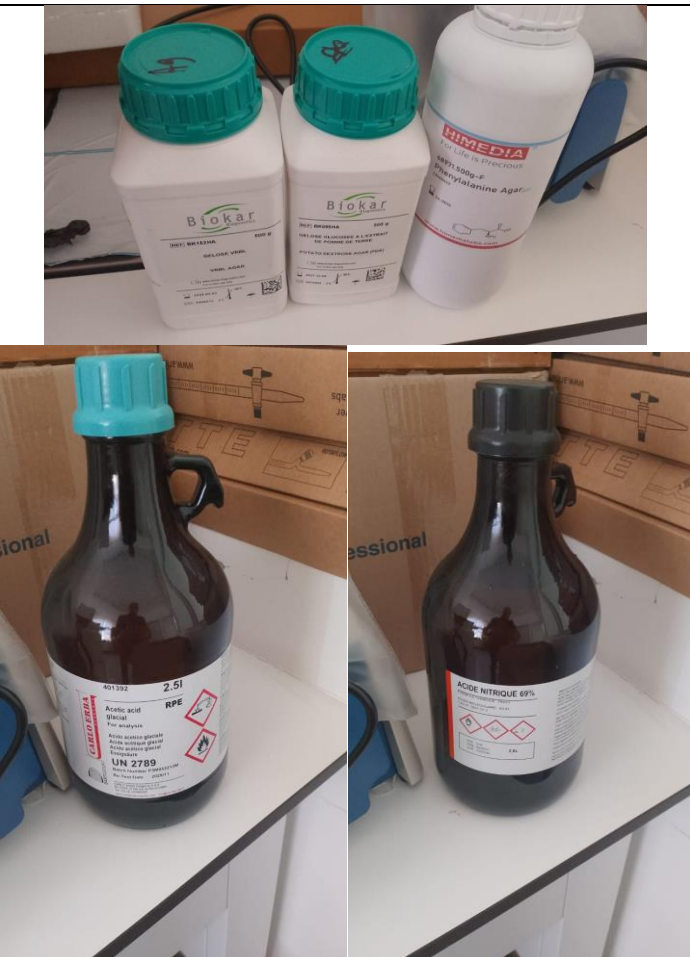

1

Complete Kjeldahl Nitrogen Analyzer System

1

10 Petri dishes 20 Var micropipette 15 Glass burette 30 Crucible 6 Agate mortar		-
10 units of Acetic Acid 10 units of Hydrochloric Acid 10 units of Sulfuric Acid 7 units of Nitric Acid 10 units of Sodium hydroxide 10 units of Ethanol absolute 3 units of Hexane 5 units of PDA Agar 5 units of biolet crystal and neutral red lactose agar 1 unit of APP Agar 4 units of Chromogenic Salmonella Agar		-

3- IT and multimedia equipment:

Designation	Photo	Number
Laptops HP PAV15		2

Macbook Air M1		2
Microphone 2 Channeel Wirless System		1
Video Conference Camera (MINRRAY MG200c-HM)		1
